TITLE : FLOWABLE MYCOTIC OTITIS EXTERNA MEDICINE FOR EXTERNAL USE

ABSTRACT : PROBLEM TO BE SOLVED: To obtain a flowable medicine for external use, exhibiting remarkable activities against dermatomycosis, especially mycotic otitis externa, caused by the infection of *Malassezia* or *Candida*.

SOLUTION: This flowable medicine in the form of a lotion, solution or gel for external use contains a general name: ketoconazole or itraconazole having an excellent antifungal activity as an pharmaceutically active ingredient, or preferably further contains an antiinflammatory medicine and an antibiotic. The medicine is flowable and can be applied into an external auditory meatus in a sufficient amount.
